

QUIZIZZ

QUIZIZZ

<https://quizizz.com/>

CATEGORY: Action

GRADE AND SUBJECT: For all educational levels and all subjects.

SHORT DESCRIPTION: Quizizz is a free web application that allows teachers to create and take quizzes, surveys and online lessons sequences, with the possibility of multiplayer and real-time modes.

READING TIME: 4 minutes
.....

LEARNING GOALS: Students can learn in different ways, and therefore teachers should consider presenting the teaching material in different ways that capture the students' attention and stimulate their engagement and interaction. Quizizz uses gamification of quiz-based learning, using quizzes games and challenges for learning purposes.

MOMENTS OF NEED OF THE TOOL: Quizizz is useful for checking progress in learning and memorizing the topics explained in class and as a form of review and final check.

LEVEL OF DIFFICULTY (RATING) AND AGE LEVEL: Easy, 6+

WHY USE THIS TOOL: By providing a variety of tools to make the classroom fun, interactive and engaging, Quizizz helps teachers create lessons and increase students' interest on topics previously taught. It allows the development of various engaging and challenging tasks for students, making it possible to categorize tasks according to the complexity of topics taught and to create specific and personalized quizzes based on students' levels and needs. It makes review tools that help students learn at their own pace. Moreover, Quizizz is an effective tool for assessing students' understanding at various levels and testing their knowledge of the concepts acquired: thanks to real-time reports and key performance indicators, teachers can know what works and what doesn't.

TOOL DESCRIPTION: Quizizz is a straightforward and intuitive platform that allows teachers to create interactive materials for lessons, carry out formative assessments in a fun way, assign homework, and have other interactions with students. Through quizzes, it makes it possible to encourage students' participation, involve them in a captivating way, and promote collaborative learning. Tests can be carried out by teachers or by students, e.g., if the aim is to experiment with peer education or to get students to re-elaborate their knowledge creatively. Quizizz has advanced features that facilitate the evaluation process, allowing progress and results to be monitored. Also, it allows teachers to create classes, or import them from Google Classroom, to be used for assigning quizzes, etc.

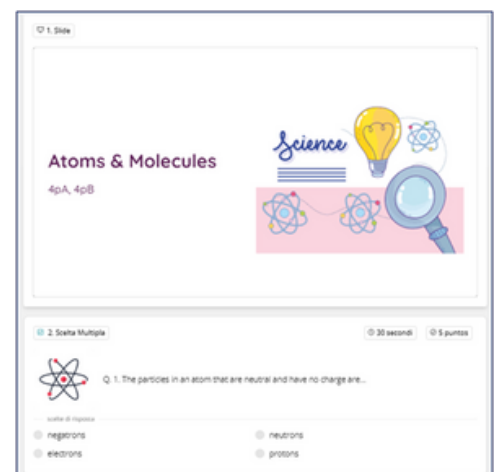

PREPARATION AND HOW TO USE THE TOOL: Once an account has been created, it is possible to access the main page and choose to use a quiz already published, adapting it to the specific teaching objectives, or create a new one from scratch. It is possible to select the subject, write the title and the questions and choose the type of answer (multiple choice, fill-in-the-blank, open answer, etc.). It is also possible to insert an image, choose the language of the test, the time participants have to answer each question, and whether to play in real-time, assign the quiz as homework, or play individually.

THE EXAMPLE: Here are many examples of using Quizizz for a lesson: <https://quizizz.com/admin>

RESOURCES NEEDED: Computer/Notebook/Mobile phone – Email address – Interactive whiteboard – Internet connection
